

Important Life Conversations: Talking to your Loved Ones about the Future

In this webinar, *Nurse-Attorney Cathleen Summers* of *Generations Law Group* will help adult children and their aging parents feel comfortable broaching the topic of the future regarding:

- What aging parents wish regarding their golden years and end-of-life care
- When the best time to have the conversation is and who should be present for it
- The important role proper estate planning plays in the conversation

This class will cover *both* sides of the conversation: how to give the information needed and how to be on the receiving end. Registrants will receive an electronic copy of our Conversations Workbook.
